Gentlemen, the time for match play is now. We have a 24-man field divided into two flights. The winner of each flight will play for the championship. As a reminder, here is how the match play works. Let's say golfer A is playing golfer B. A is a 10 handicap and B is a twelve. A must give B two strokes, one on each of the most difficult handicap holes. In this case B would receive a stroke advantage on holes 8 and 10. Each hole counts. This is not stroke play. A typical score would be golfer A, 3 and 2. which means he was up three holes with two to go. We play from the White tees and all matches must be held at DeBell. You will keep your designated handicap as shown below for the entire tournament. The master tournament sheet will be posted in the locker room at DeBell. If you win, place your name on the appropriate bracket and contact your next opponent. Let's try to play at least one match each week. Opening
